

## REMARKS

Claims 11-19 are pending.

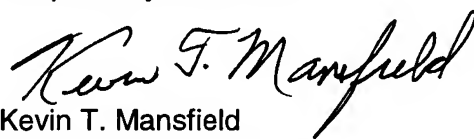

Restriction was required in the parent application. This divisional application is directed to the subject matter non-elected in the parent application, i.e. compositions and methods wherein  $R_1$  is not optionally substituted phenyl.

Informal "Use of" claims 1-8 have been rewritten as method of use claims 11-17 with multiple dependency eliminated. Composition claims 9 and 10 have been rewritten as independent claims 18 and 19 to provide antecedent basis for "a compound of formula (1)".

The newly presented claims are supported by the originally filed claims. No new matter has been added.

Applicants aver that the claims are now in better form for examination. An Action on the merits of the claims is respectfully awaited.

Respectfully submitted,
